About us

Herndon Associates Consulting, LLC is a business with over 30 years of experience in academia and manufacturing. Our company specializes in Lean transformation, training, process improvement and process simplification and documentation. We work with you to help you understand waste in your value stream and devise methods to improve and eradicate waste. Our team can also assist you in preparing for ISO audits as well as customer and supplier audits.

Let us be a part of your next collaborative continuous improvement event or project. We have on-line capabilities via videoconference.

“We do more than consult and advise, we roll up our sleeves and work shoulder to shoulder with you and your organization’s people and processes.”

Service Benefits

We provide you with superior continuous improvement services including:

- Improved Employee Knowledge
- ~60,000 hours of Process Improvement expertise
- Improved efficiency due to elimination of waste in the value stream
- Practical Results with Long Lasting Impact
